NOTE FROM THE PRESIDENT

PIETRO NOCE

Dear All,

I am happy to present **the first Social Report of Ali per Giocare**, which covers the **year 2024**. It tells the story of our member organizations and how they work every day in their communities toward a common goal: **improving collective well-being through the power of play**. With this document, I really wanted to start a new way of communicating with the world, **helping us clearly show what we do, our goals, our priorities, and what makes us unique**.

My proposal was warmly welcomed, first by the members of the Board—Chiara, Roberta m M., Roberta O. and Viviana—whom I thank for their great support and collaboration. But most of all, **I want to thank the members of Ali**, who stepped up to tell their stories and share their daily work through a detailed data collection.

Looking at the survey results, I was **honestly amazed by the numbers** and the sheer scale of the work done by our members. **Behind every number there are people, associations, social enterprises and lives**, which makes this even more moving. I know every single organization in Ali and the work they do, but seeing all the results together was truly surprising.

Publishing a **Social Report is not a legal requirement** for us; **it is a choice**. It allowed us to reflect internally on our identity and to share our results, emotions, and social growth with everyone. This makes me very proud of the Association I belong to and that I am honored to lead.

Finally, I thank all the members for contributing to this shared story. You have **turned a list of numbers into a beautiful and moving tool that represents us**. It shows the world what our organizations do every day to help improve the world we share.

KEY PERSPECTIVES

For us, **the Social Report** is an opportunity to clearly and transparently **share what we do**, the results we have achieved, and the values that guide us. It is more than just a legal requirement; it is **a tool to show our members and stakeholders the social impact we have generated**.

Through this document, we aim to strengthen trust, encourage participation, and keep alive **a shared reflection on the social good we can build** together, improving year after year.

EDITORIAL NOTE

This document is the result of the joint efforts of **the General Assembly, the Board of Directors, and the Presidency**. The information gathered was provided by the members and processed by an internal editorial team through shared monitoring tools, assemblies, and internal meetings. It is further supported by a 'journal' of significant events involving Ali perGiocare. Following the President's review and the approval of the Board of Directors, this document—drafted according to the principles of transparency, completeness, and reliability—is **published online on the association's official website**.
